Objectives of the meeting	General objectives: – Get informed about the AgGateway Europe initiative; the world wide non-profit initiative to enable and promote eAgribusiness. – Get a better understanding of business needs concerning data exchange and data sharing in agriculture. – Exchange knowledge about existing solutions to support data exchange and data sharing in agriculture. – Promote the AgGateway Europe membership. Special for this meeting: – For this meeting there is a special focus on data exchange concerning the use of (chemical) crop protection products, within the scope of the ongoing AgGateway Europe Identity-ADAPT-project. Presentations / discussions will be in English.
Invitees	– All core members of AgGateway Europe are invited as well as non-member companies/organizations that show interest in AgGateway and/or the special topic of data exchange concerning the use of crop protection products. – For this meeting a special effort is made to invite French companies, with special attention for Agro EDI Europe. – AgGateway Europe, Agrobases-Logigram / Lexagri France and F4F will contribute to the list of invitees. – Estimated number of participants: 50.
